High-speed professional label maker

QL-800

Brother's QL-800 professional label printer

will keep you one step ahead of your workload. Offering exceptional flexibility and endless design possibilities, this machine prints in both black and red text, making it ideal for a wide range of uses.

Drop-in rolls

Die-cut and continuous rolls

Automatic cutter

PC-connected

Easy to use
Perfect for busy workplaces, this advanced label maker is easy to set up and use. Simply connect to your PC or Mac via USB port and run the built-in software – no need to install printer drivers. For more labelling options, download the free P-touch Editor software and printer drivers to design and print customized labels with text, frames, barcodes and images.

Black and red printing
Draw attention to important information with black and red* print - ideal for highlighting use-by dates, allergens and other critical information. *DK-2251 roll required

Microsoft Office and database printing
The P-touch Editor add-in for Microsoft Office (Windows only) allows you to easily select and print database info directly from Word, Excel and Outlook.

Large range of labels for any application
The QL series uses Brother DK rolls that easily drop in for fast label changes. With pre-sized, die-cut adhesive labels, continuous rolls that can be cut to the length you need (up to 1 m) and removable adhesive labels that are repositionable, there's a paper or film label for just about any need.
