Catalog No. 2400L

Offset Left-Cutting Aviation Snips

Cut and trim sheet metal in comfort with the Klein Tools left cutting Offset Snips. Snip blades are made of forged, heat-treated steel for strength and durability. Offset blades make it easier to cut in tight curves and keep the user's hand away from the metal. The contoured plastic handles with thumb guards are color-coded by cutting pattern.

Specifications

Туре:	Offset
Special Features:	Spring-loaded for Self-opening Action
