sauermann®

Si-RM350/450

Works with measureQuick®

💪 No Limits. No Compromises

- Compatible with A1, A2L, and A3 refrigerants, go anywhere, handle anything
- Able to withstand up to 400 psi of positive pressure for the RM450, double of most competitors
- 3-day data logging with anti-theft lock, leave it on-site, walk away with confidence

🔧 Clamps That Work Overtime

- Parrot-beak clamps grip pipes tight for faster, more accurate readings
- Handles up to 7.87” diameter pipes with accessory probe
- No calibration needed, unlike some legacy brands

🧠 Next-Level Tech

- 300+ ft wireless range, stay connected from the rooftop or the truck
- Fully integrated with the Sauermann Pilot App and measureQuick
- Reads pressure, refrigerant weight, vacuum, temp & psychrometrics, no extra tools needed

👀 Displays That Crush the Competition

- Crystal-clear, anti-glare glass, readable even in direct sunlight
- Industry-best screen clarity, no more squinting on hot rooftops
- Backlight option for low light environments

⚡ Faster, Smarter Diagnostics

- Real-time EER calculations across the entire lineup, unlike certain legacy brands that charge extra for this feature
- Fast-response NTC sensors, get results in seconds, not minutes
- Built in trouble shooting with step by step diagnostic guidance to help both the new techs and seasoned pros alike

📝 Reports That Impress

- Generate pro-grade reports with up to 8 photos, customer info, and signatures
- Perfect for techs who want to look sharp and stay compliant
