

Part No.

## 2J2J-HOS-8ft

High Pressure hose, 1/4" Female Flare (-04) ends, 316 S.S., 8ft long

High pressure hose for test and calibration

### Specs/Attributes

|                           |                                                         |
|---------------------------|---------------------------------------------------------|
| Burst Pressure            | 40000 PSI / 2760 bar / 275 MPa                          |
| Color                     | Blue                                                    |
| Country of origin         | USA                                                     |
| Inner Diameter            | 0.08 In / 3.00 mm                                       |
| Materials                 | Reinforced Polyamide, Stainless Steel                   |
| Max Operating Temperature | 140 °F / 60 °C                                          |
| Max Pressure              | 10000 PSI / 700 bar / 70 MPa                            |
| Media Compatibility       | Air, Inert Gas, Natural Gas, Petroleum Based Oil, Water |
| Min Operating Temperature | -40 °F / -40 °C                                         |
| Minimum Bend Radius       | 1.00 In / 26 mm                                         |
| Outer Diameter            | 0.24 In / 7.00 mm                                       |
| Seal Materials            | Buna-N, Teflon                                          |
| Type                      | XT                                                      |
