## ORDERING INFORMATION

#### TO DETERMINE WHICH KIT TO USE:

- Select the base part number, based on crimp termination (TABLE 1) or set screw termination (TABLE 2), number of wires on line/load side, and wire size.
- 2. If necessary, modify the base part number according to neutral, dual, paired, or non-breakaway configurations. Use TABLE 3 for crimp variations and TABLE 4 for set screw variations.
- 3. For examples, see the bottom of this page.

Note: For fuseholder-only or combination (set screw line side, crimp load side) applications, please see the bottom of the table on the next page.
