

3900B

Trumasure 3900 Fabric and Carpet Measurement

The Trumasure 3900B incorporate the very best features from over 60-years experience in the specialised length measurement sector. These machines incorporate exclusive new components to ensure reliability and continuing accuracy even when operating under the most demanding conditions.

Operates as the material passes between the measuring roller and the spring loaded pressure roller. The machine is activated by the movement of the material. All Trumasure machines incorporate an integral brake to prevent overspin at the end of the piece. The brake is automatically released when a further piece of material is passed between the rollers.

Key Features

- Measures material up to 24mm (0.94in) thick
- Accommodates easily marked and/or abrasive materials (with special wheels)
- Accuracy 0.25%
- Accommodates pile up or no pile materials
- Optional encoder output
- Can be built into manufacturing and finishing processes
- US Weights and Measures Approval

Applications

- Manufacturing and processing of textiles, films, plastics and papers
- Fabric inspection
- Cutting to length
- Tracking of material lengths through processing

3900B Specifications

Measuring Thickness	Material up to 24mm (0.94in) thick
Measuring Wheel Diameter	0.25m
Material types	Wide range of materials including paper, plastics, tubber sheeting, vinyl, wallpaper, textiles and carpets
Pile Materials	Pile up, pile down, no pile
Weight	8kg (17.6lb)
Packed Dimensions	730 x 220 x 300mm (28.7x8.6x11.8in)
Material Direction Options	Material direction towards operator; screen on left Material direction away from operator; screen on left Material direction towards operator; screen on left Material direction away from operator; screen on right
