Low center of gravity provides stability.
- **EASY TO EMPTY**

- **HANDS-FREE**  
Foot-activated power switch allows for easy access and hands-free operation.

## SMART PULSE™ VAC

- 1 Airstream puffs into filter.**
- 2 Filters alternate pulsing.**
- 3 Vacuum stream continues uninterrupted.**

The Smart Pulse™ vac is designed with two filters and an integrated sensor. The sensor is continuously monitoring suction efficiency. When a pressure difference inside the vac vs. the outside of the filter is recognized by the sensor, the vac begins an alternating pulsing cycle, back-flushing air through the filter. This process cleans the filter automatically, yet only when needed, providing uninterrupted performance and maximizing efficiency.

**RIDGID® Professional-Industrial Vacs Provide:**

- Thoughtful on-board accessory storage
