

Tools for the Professional

Model 12R Threader Sets

Same great tools, organized in a rugged, impact resistant carrying case.

RIDGID's 12R threading sets combine premium quality cast heads and world class RIDGID dies to give you the best possible hand threading options. Now, Ridge Tool is pleased to announce the addition of our lightweight professional Carrying Case for your 12R (or 11R) threader sets. To securely transport and protect your hand threader investment, we now offer this case with complete 12R Threader Kits... or as a separate piece for your existing 12R and 11R sets.

Features:

- Superior grade 65-45-12 ductile iron castings for maximum strength and durability.
- Optional alloy or high-speed steel dies in NPT, BSPT, NPSM, BSPP, UNC, or UNF configurations to get you through any job.
- High-strength composite case securely holds up to 8 die heads and the ratchet head/handle assembly.
- Clearly labeled compartments for "best fit" and immediate recognition.
- Heavy duty, impact resistant case with tough steel clasps guarantees years of use.
