RECHARGEABLE 400 LUMEN AUTO-OFF HEADLAMP

Klein Tools' new rechargeable headlamp provides three modes to fit your task: a bright, 22-hour flood light; a brighter 12-hour focused spot light, and a super-bright 400 lumen boost mode. The adjustable fabric strap is comfortable and has just enough silicone weave to keep it in place. Whether you wear with the strap or attach it directly to the Klein® Hard Hat, this light-sensing auto-off headlamp is the best choice for your everyday light.

BOOST / ALL-ON
