

WELDING CAP

Cap constructed with flame-resistant cotton for comfort and protection

Klein Tools' Welding Cap is made from flame resistant cotton; compliant with ASTM F1506 Sec. 7.6. This cap is designed with a wide neck bill to help protect users from sparks and weld spatter. The internal elastic band helps to ensure a proper and secure fit. Welding Cap is constructed with top and front sweat absorbing padding to ensure lasting comfort. Comes with accessible soapstone holder on neck bill. Welding Cap is machine washable.
