

VEE GEE® Battery Acid Testing Syphon Set

The VEE GEE Battery Acid Testing Syphon set is used in many Industrial Settings Including:

- Fleet Maintenance
- Automotive Services
- Solar Powered System Maintenance
- General Industrial Applications

The Set Includes: a specific gravity hydrometer, glass syphon: tube w/ rubber bulb, nozzle and clamp. The rubber parts are made of nitrile rubber, which is chemically inert and durable. A reinforced box provides storage and is compartmented to eliminate breakage. Replacement parts are available.

Hydrometers, Battery Acid Testing, Syphon Set

VEE GEE®, Standard Temperature: 77°F, Accuracy: ± 1 Subdivision

Cat. No.	Specific Gravity Range	Description	Subdivision	Approx. Length (mm)
6605-5	1.150 to 1.300	Hydrometer and Syphon Set	0.002	507mm
6605-5H	1.150 to 1.300	Hydrometer Only	0.002	220 mm
6605-OSY	N/A	Glass Syphon, Rubber, Clamp Only	N/A	507 mm
