

Staticide® Polyurethane Foam Swab

Product# 7020

Product# 7022

Product# 7020/7022

Product# 7020: 2.75" swab with round tip
Tip: .5" x 0.125"
Handle: Rigid 2.25" x 0.188"
500 swabs per bag / 2 bags per case

Product# 7022: 5" swab with wide-paddle tip
Tip: 1" x 0.5" x 0.375"
Handle: Rigid 4" x .25"
100 swabs per bag / 10 bags per case

Superior solvent capacity

ACL's Polyurethane Foam Swab is a high quality, economical swab for critical cleaning. The open-cell foam structure provides an excellent capacity for absorbing and holding liquids. The fiberless construction generates little to no particles for optimal maintenance of office equipment and electronic devices.

Comprised of medical grade foam, it offers exceptional particle entrapment making it clean enough for sensitive applications such as medical device manufacturing. Free from adhesives and binders, this swab is ideal for removing flux residue from printed circuit boards and working with fiber optics.

The Polyurethane Foam Swab is available in two sizes for critical cleaning of small, hard-to-reach areas.

Ideal for the following applications:

- Medical device manufacturing and assembly
- Electronics manufacturing and assembly
- IoT and telecom applications
- Automotive

FEATURES:

- ❖ Class 10 laundered and packaged
- ❖ ISO Class 4-7 compatible
- ❖ High solvent capacity
- ❖ No adhesives or binders
- ❖ Non-abrasive
- ❖ Available in two sizes
- ❖ Medical grade foam tip
- ❖ Rigid polypropylene handle
