

8620 Staticide® Flux Remover Heavy Duty

Specialized for Advanced Plastics

This highly specialized, full-strength flux remover is our most plastic-safe, non-flammable, flux-eliminating solvent. This product can be used in any industrial setting, but is an excellent choice for areas with sources of ignition or heat. Because of this flux remover's compatibility with sensitive plastics, it is ideal for applications found in medical device manufacturing. Flux Remover Heavy Duty will effectively remove the toughest deposits, synthetic fluxes, soldering oils, and other contaminants such as dirt, grease, and molding compounds.

Directions:

To use, spray surface from a distance of 4-6 inches. Apply cleaner from top to bottom, allowing the liquid to flush away flux residues, rosin, oil, and grease. Special valve allows for 360° spraying.

For industrial use only. Read SDS carefully prior to use.

Material Compatibility:

ABS	Excellent
Buna-N	Excellent
EPDM	Excellent
Graphite	Excellent
HDPE	Good
Kynar™	Fair
LDPE	Excellent
Lexan™	Fair
Neoprene	Excellent
Noryl	Excellent
Nylon™ 66	Excellent
Cross-linked PE	Good
Polypropylene	Good
Polystyrene	Fair
PVC	Excellent
Silicone Rubber	Good
Teflon™	Excellent
Viton™	Good

Ideal for the following applications:

- Medical device manufacturing and assembly
- Aviation, avionics, and medical device prototyping
- Telecom manufacturing and installation

FEATURES:

- ✦ Suitable to use in high risk safety areas
- ✦ Plastic-safe even on soft plastics
- ✦ Removes oil, grease, ionic, and non-ionic residues
- ✦ Cleans and removes R, RA, RMA, and all synthetic flux residues
- ✦ Non-abrasive, non-flammable, non-corrosive
- ✦ Evaporates quickly; non-residual
- ✦ Ozone safe; contains no CFCs or HCFCs
- ✦ Slightly water soluble
