

915 Roll Groover

The new RIDGID 915 Roll Groover is a manual roll groover for in-place field applications. The 915 requires only 3 1/2" of clearance to travel around a pipe and a minimum of 2 3/4" of exposed pipe for grooving. With the appropriate roll sets, the 915 can groove from 1 1/4" to 12" pipe, the widest range in its class! The 915's cast-in handle allows for easy transport or chaining the groover down to prevent theft. The 915 travels smoother and easier around a pipe than any other groover. It is a must for service work crews.

Benefits:

1. **Lightweight design** – only 23 pounds
2. **Easy roll set change out** – up to 12" wide capacity range in one unit for service versatility
3. **Cast-in carrying handle** – easy to transport or lock up to prevent theft
4. **Included ratchet** – 90 degree bend-in handle makes grooving easier
5. **Available customized tool box** – holds 915 groover and all available roll sets
6. **Easy to use depth setting gage** – helps make accurate grooves
