GREEN ROTARY
LASER LEVEL

360 degree coverage for all leveling projects

ROTARY LASER LEVEL

The Klein Tools Green Rotary Laser Level is an all-in-1 package for all leveling projects. With a powerful green laser that has a range of up to 1150' when used with the detector. The Green Rotary Laser Level is the perfect tool for any indoor or outdoor leveling work. Use for concrete leveling, warehouses, post alignment, surveying, and more. It features a green vertical plumb spot for locating on ceilings. The rechargeable battery ensures over 24 hours of continuous runtime. The product is IP66 rated weatherproof to ensure that it can operate in the toughest jobsite conditions. The unit can be mounted horizontally and vertically, allowing laser lines to be projected in the desired orientation. It features a 5/8" thread for secure attachment to the included heavy-duty tripod. The full kit includes a highly visible grade rod, a rugged tripod, and a laser detector that is easy and quick to set up.
