

AIRFLOW & ENVIRONMENTAL METER ABM-200

The ABM-200 Airflow & Environmental Meter is a small, portable, wireless smart tool that, when paired with a smart phone or tablet running the latest CPS Link, can measure, record and e mail a variety of indoor/outdoor temperature, humidity, airflow or pressure conditions taken at residential or commercial job sites.

KEY FEATURES:

- On screen guidance to accurately measure and record test data:
 - Temperature differential, dry bulb, wet bulb and feels like temperatures
 - Airflow velocity and volume
 - Relative humidity, dew point
 - Barometric pressure, air density
 - Indoor/outdoor conditions
 - Wind speed/direction/gusts
- Test And Balance Report- Automatically generated from data collected.
- E-mail professional reports for work completed, and where located
- Client Lists - Easy to enter and retain client contact information
- Cloud back up of data

Ways to attach ABM-200 to gather airflow and environmental data

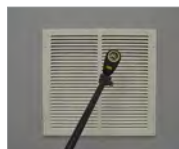

Mount inside
ABM EasyHood

Attach to
smartphone

Attach to grille

Mount on EXP-64
extension pole
(sold separately)

Mount on TRI-MINI
tripod (sold separately)

Data Displayed In Current
Conditions Screen

SPECIFICATIONS

Wireless Connection Range	≤100 ft. (30.5 m)
Airflow Volume	Range: 35-1200 CFM (59-2,038 M ³ /H)
Velocity	Range: 44-12,320 fpm (13 - 3,755 mpm) Accuracy: ±0.5%
Pressure (mbar)	Range: 300-1100 Accuracy: ±0.12 mbar
RH	Range: 0-85% Accuracy: ±4%
Temperature	Range: 0 °F to 140 °F (-18 °C to 60 °C) Accuracy: ±0.7 °F (0.4 °C)
Bluetooth Smart	✓
Auto Power Off	No connection or 30 sec after closing app
Battery Type	3.0V CR2450 coin cell lithium (remove/reinstall rubber skin to access battery compartment)
Battery Life	> 500 hrs.
CPS Link	Patented modular test and measurement system technology (US Patent No. 9,043,161)
Warranty	1 Year
