

Bluetooth® Behind-The-Head Earmuffs

The Klein Tools Bluetooth® Behind-the-Head Earmuffs feature a unique, versatile headband that can be worn with a variety of head protection with minimal interference. The angled soft foam cushions provide an effective acoustic seal. When not in use, pivot the earmuff cups to comfortably wear around the neck to keep them within reach. The earmuffs are equipped with Bluetooth® technology, allowing for seamless pairing and premium sound quality.
