

Arc Flash Face Shields

AFS-12GHCP

Arc Flash shields are designed to provide protection against low-level energy arc flash hazards.

Arc face shields, when worn with a sock hood (balaclava) provide protection for NFPA 70E & CSA Z462 PPE Category 2 (CAT2)

Face shields are tested according to ASTM F-2178 and ANSI Z87.1

There are a variety of options for purchasing a face shield—the face shield itself, face shield with hard hat or face shield with hard hat adapters.

We offer standard and deluxe style storage bags to protect your purchase.

AFS-180

DESCRIPTION

12 Cal Face Shield with Snap Clip Adapter
