

Changing thumbscrew of DIN rail mounting bracket (B-570)

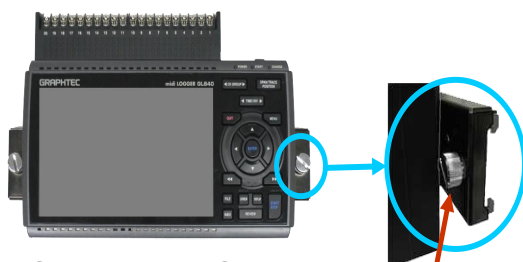

GL series can be mounted to DIN rail using mounting bracket B-570. The mounting bracket is fixed to rail by thumbscrew.

In this change, the knob size on the thumbscrew is changed, but the thread size of screw is not changed.

Note: this change applies to B-570 shipped after 8th December, 2017.

Current style

Supported GL series: GL840, GL820, GL900

Large knob

New style

Supported GL series: GL840, GL820, GL900, GL980, GL2000

Small knob

* When using GL980 and GL2000, it is required to remove rubber cover.
