Seek
thermal

Welcome to the official Seek Thermal App! Let's take a few minutes to quickly walk through the basics of the App and learn how to use your Device.

Registration

Why Register?

We want you to have a great experience with your Seek product. By sharing your name, email, and serial number, you enable us to send you product updates and tips and techniques. We can also expedite your warranty inquiries by knowing when and where you purchased. Country information helps us to provide better local product support.

Registration is not required and you may choose to "Opt Out"

First Time Registration:

This one-time registration takes 30 seconds or less with WIFI or Cellular connection on your phone. You DO NOT need to remain signed in to use the product after registration is complete.

- **CAMERA TYPE INDICATOR:** Shows which type of thermal camera you have connected.
- **MEDIA GALLERY:** Here you will find all your photos & videos.

Rate our app and Contact us for more support.

Thermal Span and Level (CompactPRO Only)

Easily set and lock a temperature range to display the maximum thermal information of any object or scene with a set point and range.

Emissivity Control (CompactPRO Only)

Emissivity is a material property that defines how much IR light is emitted from a particular surface. Calibrate for emissivity through four pre-defined settings to ensure accurate temperature readings and reporting.

Taking Photos & Video

Swipe left and right to switch between photo & video mode.
