InTemp® CX602 Data Logger

Dry Ice Logger - Single Use

The InTemp CX602 Dry Ice data logger is a Bluetooth Low Energy (BLE)-enabled single-use logger that records temperature data for up to 90 days. The CX602's built-in 1.5m probe measures temperatures as low as -95°C (-139°F) and includes a protective sheath to prevent accidental cutting of the cable, and a clip for secure mounting.

Using the InTemp® app on your mobile device, you can easily configure the CX602 with one of multiple preset configurations, or set up a custom configuration. The logger has a built-in alarm to alert you to excursions. And logger reports can be quickly downloaded to your phone or tablet and uploaded to an InTempConnect® account, where you can analyze and export data as needed.

With the optional CX Gateway, you can get real-time notification of temperature excursions and automatically download data from loggers within range of the device.
