PLIER WRENCH

Klein's Plier Wrench functions as an adjustable wrench on flat-sided fasteners as well as a pump plier for pipe and other round objects. Its reversible jaw provides smooth parallel jaws characteristic of traditional plier wrenches, with the added versatility of knurled teeth on the reverse side when extra bite is needed. Handle lever provides unique and efficient adjustment.

**HIGH LEVERAGE
DESIGN PROVIDES
STRONG HOLD ON
WORKING PIECE**

HIGH-LEVER RATIO provides exceptional grip when holding or bending various workpieces

HANDLE LEVER ADJUSTMENT minimizes hand travel and allows adjustment in confined spaces

MAXIMUM VERSATILITY
with 2" max jaw opening
and 20 adjustment positions

**PARALLEL
JAWS**
provide secure
and smooth
gripping of
nuts, bolts, and
miscellaneous
workpieces

KNURLED TEETH
on reversible jaw
provides extra "bite"
when working with
conduit and pipe

TWO TOOLS IN ONE

OFFERS BOTH PARALLEL JAWS AND V-JAW FOR DUAL FUNCTIONALITY

REPLACEMENT JAW available (Cat. No. 53010J)
