# Force Measurement Re-imagined

Series F Tension / Compression Test Frames are engineered for force testing applications up to 1,500 lbF (6.7 kN). Select from a broad range of force sensor capacities and an expansive array of grips and fixtures.

Set up tests, record data, and analyze data via IntelliMESUR® software. From basic tests to multi-step sequencing, IntelliMESUR® is fully integrated with Series F systems. Select from a pre-configured tablet control panel or standalone software for your own Windows device.

## Virtually limitless applications

From food packaging to electronics, from consumer products to aerospace manufacturing, Mark-10 force test frames are at home in laboratory and production environments in virtually every industry worldwide.

Peel testing

Wire tensile testing

Compression spring testing

90° peel testing

Score bend testing

Tension spring testing

# Engineered For Performance

There's a Series F test frame for every need and budget. Select from a wide range of force capacities, heights, and form factors.

F105 | F305 | F505

F755 | F1505

F755S | F1505S

F505H

	F105	F305	F505	F505H	F755	F755S	F1505	F1505S
Force Capacity:	100 lbF [0.5 kN]	300 lbF [1.3 kN]	500 lbF [2.2 kN]	500 lbF [2.2 kN]	750 lbF [3.4 kN]	750 lbF [3.4 kN]	1,500 lbF [6.7 kN]	1,500 lbF [6.7 kN]
Travel Distance:	18.0 in [457 mm]	18.0 in [457 mm]	18.0 in [457 mm]	18.0 in [457 mm]	32.0 in [813 mm]	14.2 in [360 mm]	32.0 in [813 mm]	14.2 in [360 mm]

### Rigid and precise mechanical design

Exceptionally rigid frames feature custom extrusion designs, engineered for stiffness. Factory compensation of test frames and force sensors ensure **position accuracy of  $\pm 0.002$  in /  $0.05$  mm** under any load, at any position.

Stepper motors and controllers drive a ballscrew and linear guideway for smooth, quiet operation, with virtually no speed variation under load.

### Seamless force sensor interface

**Series FS05** smart force sensors mount directly to the crosshead of models F105, F305, F505, and F505H, without any connection cables. Ranges available from 0.12 to 500 lbf [0.5 N to 2.5 kN]. Accurate to  **$\pm 0.1\%$  of full scale**.

**Series R07** S-beam type force sensors accommodate higher force ranges, also compatible with Plug & Test® technology. Ranges available from 50 to 1,500 lbf [250 N to 7.5 kN]. Accurate to  **$\pm 0.15\%$  of full scale**.

### Modular design

Frame bases can be removed to accommodate column extensions and alternative mounting configurations. Most electronics are housed in a self-contained enclosure, easily accessed and replaced if needed. Integrated T-slots along the column accommodate add-ons, such as a USB hub.

### External limit switches

Solid-state upper and lower limit switches may be used as test limits or as test exceptions. Dual-graduated rulers aid in switch placement.

## An integrated motion control and data collection solution

IntelliMESUR® software is an integrated solution running on Windows tablets and PCs. Select a pre-loaded 10.1" tablet with mounting bracket or use your own Windows device. With IntelliMESUR®, you can create and run a wide range of basic and multi-step tests, including:

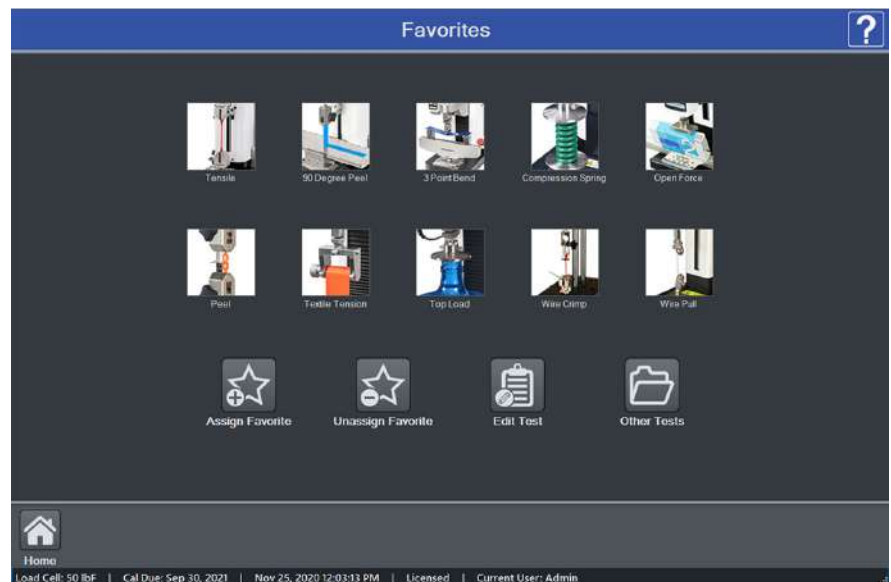

- Limit testing to a load, break, or distance
- Height measurement
- Load holding
- Cycle testing
- Multi-step testing, utilizing any combination of motion control and data collection functions

Perform individual runs or batches, and view data in graphical format or results tables. Save or export data as needed, or generate a report.

## Ready. Set. Go.

From IntelliMESUR®'s home screen, quickly access up to 10 favorite tests. Associate an image with each favorite for easy identification.

## What's your point of view?

Run a test via the Graph or Results views, and switch views as needed. Pass / Fail indicator easily identifies problematic samples. Individual runs may be invalidated if, for example, the sample slips out of the grips, or the test was interrupted.

### Graph view

The Graph view plots force vs. distance or force vs. time. Overlay up to 10 runs for visual comparisons.

### Results view

The Results view displays user-selected results for each run. Statistics may be applied to selected results.

Run No.	Status	Serial Number	Date	Time	Speed (in/min)	Final Load (lbf)	Max Load (lbf)	Max Distance (in)
1	Pass	12345	Nov 25, 2020	12:02:02 PM	10.00	0.12	6.62	0.4640
2	Pass	45678	Nov 25, 2020	12:02:19 PM	10.00	0.46	6.64	0.4870
3	Pass	98765	Nov 25, 2020	12:02:33 PM	10.00	0.30	5.92	0.4610

Max	Min	Mean	Std. Dev.	Variance
0.46	0.12	0.02	0.3243	0.1052
6.64	5.92	6.40	0.3348	0.1121
0.4870	0.4610	0.4705	0.0116	0.0001

# Test setup is easy as 1-2-3

## Basic tests

Select a test type, and IntelliMESUR® will guide you through the setup.

**Load Limit**

**Distance Limit**

**Break Limit**

**Load Hold**

**Cycle**

### 1. Pre-Test Settings

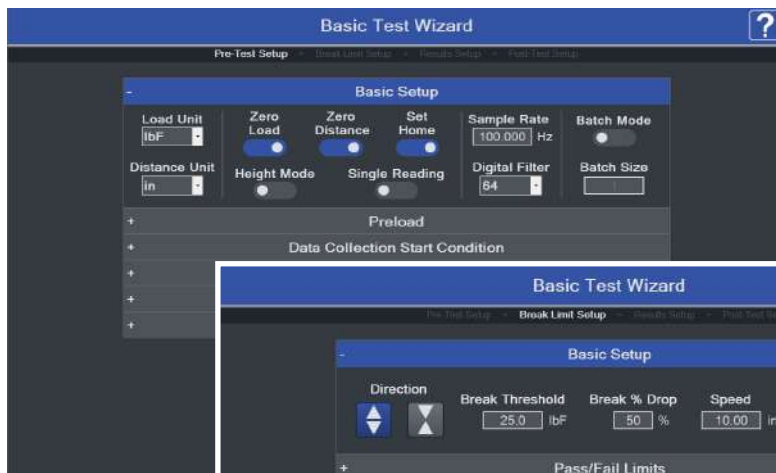

- Units of measurement
- Batch size
- Display preferences
- Preload
- Operator prompts

### 2. Test Settings

- Test objective
- Speed
- Pass / fail limits
- Exception limits

### 3. Results & Statistics Selection

- Distance at max. load
- Distance at min. load
- Distance at break
- Delta distance
- Area under the curve

**Pre-Test Settings**

**Test Settings**

**Results & Statistics Selection**

## Multi-step tests

Building upon basic test wizards, easily incorporate any combination of steps, with the ability to loop a sequence of steps. Select from:

- Move to load
- Move to distance
- Move to break
- Hold a load or position
- Loop / cycle
- Datum
- Prompts
- Save current load or position
- Zero load or position
- Return to Home position

Insert and re-order steps as necessary

## Operator prompting

Prompts can appear at the beginning of each test, batch, or run.

**Ask** prompts ask the operator for information which is saved in the results table - for example, a lot number. Type the response or use a barcode scanner.

**Tell** prompts provide instructions to the operator, and can include an image.

Ask Prompt

Tell Prompt

## Take your measurements to new heights

Use **Height Mode** to determine height at a specific load, commonly used in spring testing. A datum may be set to define the reference point.

## Deflection compensation

Series F test frames and force sensors are deflection-compensated at the factory, resulting in system distance measurement accuracy of  $\pm 0.002$  in /  $0.05$  mm at any load and at any position along the frame. To further compensate grips and attachments, use IntelliMESUR®'s deflection compensation utility. The deflection offset file can be associated with the test setup file.

# Robust data acquisition and management

## Blazingly fast

Force sensor sampling rate of **20,000 Hz** yields accurate peak measurements even in quick-duration events. IntelliMESUR® collects load and travel data at up to **1,000 Hz**, and allows up to 4 million data points per run.

## Customizable reporting

Print or create a PDF report, including results, statistics, graph, system and user information, and comments. Personalize the report with your company logo and an additional image.

Create report templates to save with future reports.

## Save or export data

Automatically or manually save individual runs and results to a USB drive or file location of your choice. File names are automatically generated with the test name and time stamp, for quick searchability.

Results sets and data from individual runs may also be exported as .csv files.

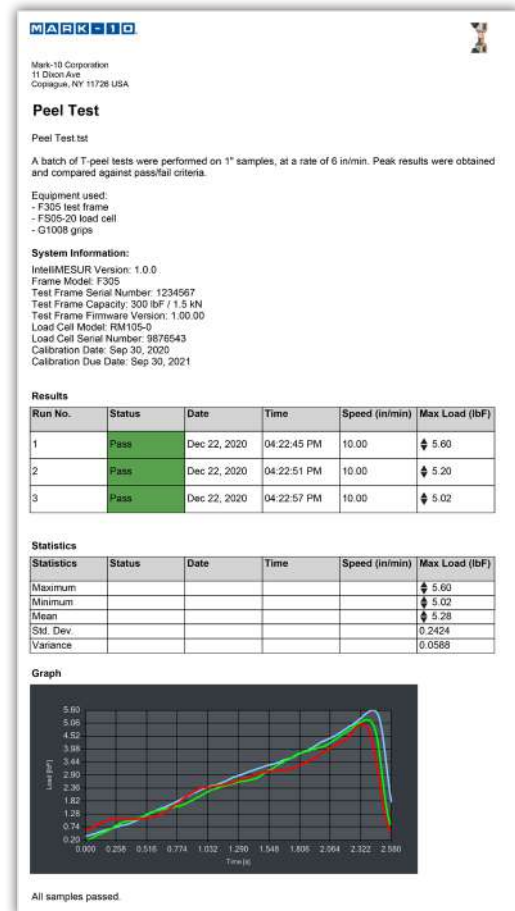

Run No.	Status	Serial Number	Date	Time	Speed (in/min)	Max Load (lbF)	Max Distance (in)
1	Pass	12345	11-Dec-20	12:43:37 PM	10	-4.74	0.3805
2	Pass	98765	11-Dec-20	12:43:48 PM	10	-4.54	0.365
3	Pass	02468	11-Dec-20	12:43:58 PM	10	-5.16	0.375

Statistics	Value
Maximum	-5.16
Minimum	-4.54
Mean	-4.82
Std. Dev.	0.2584
Variance	0.0668

Results .csv output

PDF report

## Secure user access

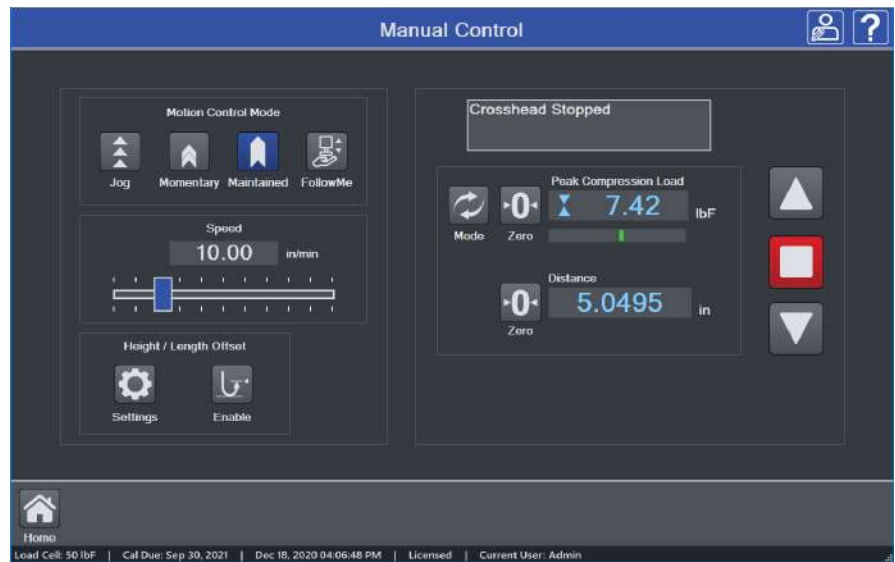

Control user access with three permissions levels:

- **Administrators** have full access.
- **Supervisors** can create a test, run reports, calibrate force sensors, and change settings.
- **Operators** may recall and run a test, but cannot create a test or perform more advanced functions.

## Intelligent manual control

Manually control the test frame to obtain quick force and distance results, or manually position the crosshead prior to a test. Select from several actuation methods, including momentary (button-hold), maintained (button release) motion, jog mode with three distance presets.

With Mark-10's innovative **FollowMe®** function, push and pull on the force sensor to move the crosshead. Apply greater force to achieve faster motion. FollowMe® is responsive enough for quick positioning as well as fine adjustments.

**FollowMe®**

The **Height / Length Offset** utility in Manual Control defines a reference point to accommodate applications in which grips cannot directly touch one another.

## Uniquely serviceable

### Calibrate force sensors on the test frame or off-site

Calibrate Series FS05 and R07 force sensors in one of two ways:

#### Test frame

IntelliMESUR® provides an integrated utility, with an intuitive step-by-step wizard. Manual controls allow the technician to use the test frame to apply tension and compression forces.

#### Off-site

Conveniently remove the force sensors for off-site calibration with a Mark-10 Model M7I or M5I indicator.

**FS05 force sensor connected to an M5I indicator via AC1083 adapter for off-site calibration**

### Field-upgradeable

Test frame firmware and IntelliMESUR® software can be updated in the field via a simple user interface. No need to schedule a service call or to ship hardware to the factory.

### Easy-to-service electronics

Most electronics are housed in an integrated module, easily replaced without special tools or processes.

**Removing the electronics module**

## In The Box

### F105 / F305 / F505 / F505H

- Control panel, mounting bracket, and hardware (-IMT models only)
- Mounting bracket, column end (F505H only)
- USB flash drive containing software installation files (-IM models only)
- USB dongle (-IM models only)
- USB cable
- #10-32M medium hook
- 5/16-18M large hook
- #10-32F 2" diameter compression plate
- #10-32 M/F 2" extension rod
- #10-32 F/F coupler
- Adapter, 5/16-18M to #10-32F
- Set screw, #10-32 x 3/4"
- Hex nut, #10-32 (2)
- Power cord
- Allen wrench set
- NIST-traceable certificate of calibration, force

### F755 / F755S / F1505 / F1505S

- Control panel, mounting bracket, and hardware (-IMT models only)
- USB flash drive containing software installation files (-IM models only)
- USB dongle (-IM models only)
- USB cable
- Eye end kit for base
- Lock ring for eye end (2)
- Spanner wrench (2)
- Power cord
- Allen wrench set
- NIST-traceable certificate of calibration, force

# Optional Accessories

## Column Extensions for Models F105 / F305 / F505 / F505H

Select from single- and double-column extensions for oversized samples. Three heights are available - 6, 12 and 24 in [150, 300, and 600 mm]. Double-column extensions accommodate up to a 20 in. [508 mm] wide sample, or  $\varnothing 21.5$  in [ $\varnothing 546$  mm] round sample. Base contains rows of T-slots for fixture mounting. Double column extensions not available for F505H.

## Certificate of Calibration - Distance & Speed (CERT-DS)

NIST-traceable certificate of calibration for test frame distance measurement and speed.

## Shield for Models F105 / F305 / F505 (AC1086)

Provides pinch and sample debris protection for the operator. The shield rotates open and closed with smooth, effortless actuation. An electrical interlock prevents test frame operation while the door is open. Includes a remote emergency stop switch.

## Shield for Models F755 / F755S / F1505 / F1505S (AC1092-1, AC1092-2)

Provides pinch and sample debris protection for the operator. An electrical interlock prevents test frame operation while the door is open. The tablet control panel and included remote emergency stop switch can be mounted to the shield's extruded frame. Also compatible with Models F105, F305, and F505 with up to 24 in / 600 mm column extensions.

### USB Hub (AC1093)

Test frame-mounted 4-port USB hub improves cable management and conveniently accommodates peripherals, such as a flash drive, barcode scanner, etc. Compatible with all Series F test frames.

### Adapter, FS05 to Plug & Test® Connector and Extension (AC1083, AC1084)

Adapts a Series FS05 force sensor or PTAF sensor adapter to Plug & Test® type interface, for ease of external calibration via a Mark-10 indicator. Also permits mounting of a Series FS05 sensor to Models F755, F755S, F1505, and F1505S test frames. Shown above with Model M5I indicator and AC1084 extension cable (12 in / 305 mm).

### Third-party Force Sensor Adapter (PTAF)

Adapts a user-supplied force sensor to Models F105, F305, F505, and F505H test frames, and Models M5I and M7I indicators. AC1083 adapter required for Models F755, F755S, F1505, and F1505S test frames. Use the included software utility to select from a library of common force capacities. Requires a Model M5I or M7I indicator for configuration.

Select one or more force sensors (required)

## Accessories

Model No.	Description
<b>CERT-DS</b>	Certificate of calibration, distance and speed
<b>AC1094-1</b>	Single column extension, 6 in / 150 mm, F105 / F305 / F505 / F505H
<b>AC1094-2</b>	Single column extension, 12 in / 300 mm, F105 / F305 / F505 / F505H
<b>AC1094-3</b>	Single column extension, 24 in / 600 mm, F105 / F305 / F505 / F505H
<b>AC1095-1</b>	Double column extension, 6 in / 150 mm, F105 / F305 / F505
<b>AC1095-2</b>	Double column extension, 12 in / 300 mm, F105 / F305 / F505
<b>AC1095-3</b>	Double column extension, 24 in / 600 mm, F105 / F305 / F505
<b>AC1086</b>	Shield, F105 / F305 / F505
<b>AC1092-1</b>	Shield, F755S / F1505S
<b>AC1092-2</b>	Shield, F755 / F1505
<b>AC1093</b>	USB hub
<b>AC1083</b>	Adapter, F505 sensor / PTAF adapter, to Plug & Test® connector / F755, F755S, F1505, F1505S test frames, 10 in / 250 mm cable
<b>AC1084</b>	Extension cable, 24 in / 610 mm, Plug & Test®, male/female
<b>PTAF</b>	Adapter, Plug & Test®, customer-supplied force sensor to Series F test frames
<b>DC5000</b>	Spare tablet control panel, pre-installed with IntelliMESUR®, with test frame mounting hardware
<b>15-1019</b>	IntelliMESUR® software, customer installation on a Windows device, additional seat
