# GT-12A

## NON-CONTACT VOLTAGE DETECTOR

### FEATURES

- Patented automatic self-test
- Bright LEDs flash and audible alarm sounds if AC voltage is present
- Silent mode for use in quiet areas
- Safe, non-contact voltage detection
- Automatic shut-off extends battery life<sup>1</sup>
- Lifetime Warranty<sup>2</sup>
- Designed and assembled in USA

Large,  
easy-to-handle  
battery cover.

High brightness LEDs  
for visibility from  
any angle.

Rugged,  
ultrasonically-welded  
construction.

### SPECIFICATIONS

Voltage Detection	50 V to 1,000 V (AC)
Frequency	50 Hz to 500 Hz
Measurement Category	CAT IV, 1,000 V
Battery Type	2 x AAA (included)

### ORDERING INFORMATION

CAT. NO.	UPC NO.	DESCRIPTION
GT-12A	00890	Detector, Voltage Non-Contact

<sup>1</sup> Shut off occurs after 5 minutes of inactivity.

<sup>2</sup> Terms and conditions apply. See online or full-line catalog for more details.
