

VerifEye™ Mini Meter™ Kits Submetering Solutions for **Accurate Measurement & Verification**

Mini Meter Indoor Flush Mount Enclosure

Mini Meter Indoor Surface Mount Enclosure

Mini Meter Outdoor Enclosure

Current Transformers (CTs)

DEFINITION

Leviton VerifEye™ Mini Meter™ line of revenuegrade meters meet the requirements for all single phase tenant billing applications. Designed to provide a simple and effective process for accurately capturing measurements of power consumption, Mini Meters are easy to specify and install for new construction and retrofits.

- 0.5% kWh Meter, ANSI C12.20 (0.5). NRTL Certified
- 120V 1PH 2W and 120/208/240V 2PH 3W
- 100-200 Amps
- Kit includes submeter, Current Transformers (CTs) and the specified enclosure (if included)
- Multi-tenant residential applications
- Compact footprint; fits almost anywhere
- Cost effective solution
- Isolated pulse output channel for AMR compatibility

VerifEye meters utilize highly accurate current transformers for revenue-grade performance certified to ANSI standards.

Leviton offers CTs in solid and split core styles to accommodate all phases of installation and construction. Solid core CTs are ideal for new construction, when power is not live and wires can easily be threaded through the core. Split core CTs can be installed at any time without having to disconnect wire terminations, making them the optimal choice for retrofitting an existing structure. Split core CTs close securely for fast, precise installation with no need for time-consuming tie wraps and no worries about improper seating or core half separation. Both solid and split core CTs offer high quality, long term accuracy and reliability.

Every Mini Meter has an installer-friendly feedback feature. The user friendly reverse phase indicators, found on the meter's LCD, illuminate if a meter is installed improperly. After installation, the green duty cycle light shows that the meter is collecting electric consumption data at the appropriate rate.

Leviton Manufacturing Co., Inc. Energy Management, Controls and **Automation**

PRODUCT DATA

APPLICATIONS

Use Mini Meters in multi-tenant residential and certain commercial industrial applications such as campgrounds and marinas for:

- Load profiling and benchmarking
- AMR/BAS/BMS/EMS integration
- Usage aggregation
- Tenant cost allocation
- Measurement and verification
- Energy conservation and cost reduction
- Green building initiatives and government mandates

FEATURES

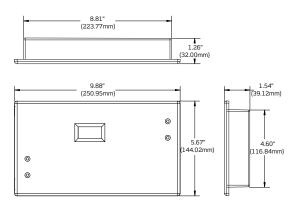

- Measures kWh
- Revenue-grade—0.5% kWh meter conforms to all applicable standards of ANSI C12.2
- Equipped standard with an Isolated Pulse Output channel for integration with automated meter reading
- Available in indoor flush mount and surface mount enclosures and outdoor NEMA 4X enclosures
- Utilizes revenue-grade Solid core Current Transformers (CTs) or 1.0% accuracy split core CTs
- "6" models UL/cUL Listed Energy Usage Monitor per CCN FTRZ
- Five year warranty

CONFIGURATIONS*

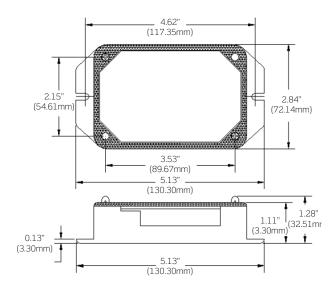

AMPERAGES	PHASE/VOLTAGES
100 and 200A	1Ø/2W - 120V
100 and 200A	1Ø/3W - 120/208/240V

^{*} Contact factory for non-US voltage configurations.

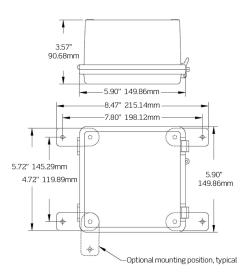

INDOOR FLUSH MOUNT ENCLOSURE -MK240, 6P201

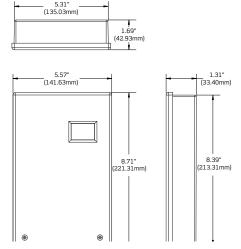

DIMENSIONS OEM METER — MSxCT, MDxCT

OUTDOOR ENCLOSURE - M0240

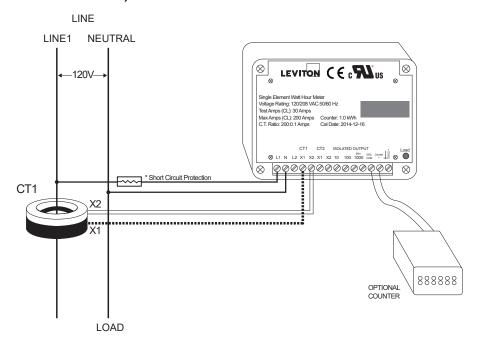

INDOOR SURFACE MOUNT ENCLOSURE - 6PSMT
