ELECTRONIC STUD FINDERS

The Electronic Stud Finder comes in two models: one with a cross-line laser feature and one without. Both detect wood and metal studs with auto deep scan up to 1-1/2", featuring bright LEDs and mutable alerts to indicate full stud width. An ergonomic grip, HOLD mode, and protective felt pads make it user-friendly, while the rugged design withstands drops up to 6.6'. Calibrate prior to use.

Bright LEDs and audible alerts provide clear stud identification

Indents for easy markings and felt pads protect walls

Ergonomically designed with a handheld grip

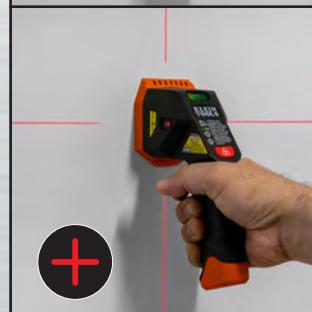

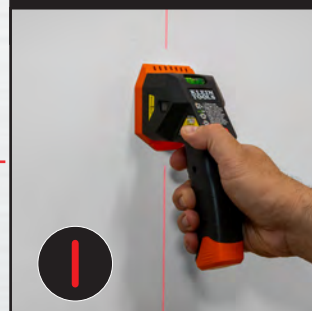

ESF100

ESF150LL

Use lasers independently or together (Cat. No. ESF150LL)

MAGNETIC STUD FINDER

The Compact Magnetic Stud Finder detects metal studs and fasteners within wooden studs, using a powerful Rare-Earth magnet for fast, accurate stud location. It includes felt pads to safeguard drywall and plaster walls. Use multiple stud finders as reference points while working. Withstands drops up to 9.9'.

Use with a plumb line
