

# **Digital Caliper** 6" (150mm) Model R7406

### TECHNICAL DATA

This high-precision digital caliper has been designed to provide accurate measurements in both inches and millimeters. Built with a hardened stainless steel head and body for durability, it offers the ability to measure outside, inside, depth and step dimensions. The R7406 features user-friendly functions such as a zero adjustment button and a lock screw to hold the slide in position.

#### **Features**

- Measure outside dimension, inside dimension, depth and step measurements
- Easy-to-read 5-digit LCD display
- User selectable unit of measure (in/mm)
- Zero adjustment button
- · Lock screw to hold slide in position
- Hardened stainless steel head and body
- · Low battery indicator and auto shut off

## **Specifications**

Measuring Range: O to 6" (O to 150mm) Resolution: 0.0005" (0.01mm)

O to 1.967" (O to 50mm): Accuracy:

±0.0010" (0.02mm)

1.967 to 6" (50 to 150mm): ±0.0011" (0.03mm) 0.0005" (0.01mm)

**General Specifications** 

Repeatability:

Display: 5-digit LCD Unit of Measure: Inch/Metric

Zero Button: Yes

Auto Shut-off: Yes (5 mins)

Low Battery Indicator: Yes

Power Supply: CR2032 **Product Certifications:** CE. IP54

32 to 104°F (0 to 40°C) Operating Temperature: Storage Temperature: 14 to 122°F (-10 to 50°C)

Operating Humidity Range: O to 85%

9.3 x 3.1 x 0.6" Dimensions:

(235 x 78 x 15mm)

5.6oz (160g) Weight:

## **Applications**

- Fabricating
- QA departments
- General industrial use

Model	Description
R7406	Digital Caliper, 6" (150mm)
R7406-NIST	Digital Caliper, 6" (150mm) & NIST
