

# RevealShieldPRO™

**HANDHELD THERMAL CAMERA  
DESIGNED FOR LAW ENFORCEMENT**

## KEY CAMERA SPECS

- 320 x 240 Thermal Sensor
- 24° Field of View
- Long Range Detection
- Works Day & Night
- IP67 Rating

**Seek**  
thermal

Highly durable and easy to use, RevealShieldPRO combines a high-performance 320 x 240 thermal sensor with intuitive user interface. When you need it, a powerful 300-lumen LED light is available at the touch of a button. RevealShieldPRO was specifically designed for Law Enforcement Professionals. Built with a rugged over-mold housing and IP67 rating, RevealShieldPRO is fit to withstand the elements.

Thermal Imaging helps you safeguard land and borders, quickly clear a room, find discarded evidence at night, and track perpetrators without a flashlight giving your position away. Even the most elusive suspects can't hide their heat signature.

## KEY FEATURES

### 320 x 240 Thermal Sensor

Excellent image clarity and sensitivity with 76,800 pixels

### Long-Range Detection

Detect a human at long distances in complete darkness

### 3.5 Hour Runtime

Long-Lasting rechargeable battery

### Durable Design

Designed for the outdoors with IP67 rating

### Lightweight & Easy-to-use

Intuitive, 3 button controls provide easy operation of your camera

## BENEFITS

### Safeguard Buildings, Land, and Borders

Tactical surveillance technology that's affordable

### Better Than Night Vision

Even the most elusive perpetrators can't hide their heat signature

### Personal Safety

Clear a room without putting yourself in harm's way

### Situational Awareness

It's a lot easier to stay safe when you can see in the dark

### Recover Evidence

Recover discarded or hidden evidence invisible to the human eye

**TECHNICAL SUMMARY**

SPECIFICATIONS	DESCRIPTION
Thermal Sensor	320 x 240
Detection Distance	825 Yards (758 Meters)
Recognize Distance	200 Yards (190 Meters)
Identify Distance	115 Yards (108 Meters)
Field of View	24 Degree FOV
Frame Rate	9 Hz or 30 Hz
Zoom	4X Digital Zoom
IP Rating	IP67 Waterproof
Display	2.4" Color with Corning® Gorilla® GlassUncooled
Microbolometer	Vanadium Oxide
Startup Time	2-3 Seconds
Spectral Range	7.5 - 14 Microns
User Interface	Self-Contained Device with 3 Button Navigation
Storage Temp	-40 to 140F (-40 to 60C)
Operating Temp	-40 to 120F (-20 to 50C)
Runtime	Up to 3.5 Hours Thermal Imaging
Battery	Rechargeable Lithium Battery

**LIGHTWEIGHT & EASY-TO-USE**

**ACCESSORIES**

- Lanyard attachment
- Nylon Holster with tactical clip
