

Sentinel® Series LT

Remote Tank Level Monitoring

- ✓ Battery Operated | No Programming
- ✓ Remote Tank Monitoring via Cellular Networks
- ✓ E-mail & Text Alarm Notification

Features

- ✓ 24/7 access to Data through Cloud
- ✓ Integrated GPS Functionality
- ✓ Low Cost LTE Cellular Technology
- ✓ Battery powered up to 5 years (3 calls/day)
- ✓ Variety of Trigger Points
- ✓ Mobile Ready Access

Technical Specifications

Wireless Communication	GSM Digital Wireless Radio
RF Approval	FCC part 15B Approved
Frequency Bands	GSM 850 900 MHz WLAN
Output Voltage	Nominally 14/24VDC
Output Current	4 - 20mA
Enclosure	NEMA 4X UL Approved
Lithium Battery	Replaceable Lithium Ion Batteries (CR-123A)
Body Material	PP PC
Operating Temperature	-13°F - 158°F -25°C - 70°C

How It Works

Product Description

The Sentinel® Series is a battery operated remote tank level monitoring system that delivers reliable daily measurements that are both scheduled and event driven. Remote tank level monitoring with the Sentinel® is exceptionally flexible, eliminating the hassles of network infrastructures and internet service. The Telemetry device connects via a wireless signal to local cellular networks and transmits level, Alarms, Battery Status, Rate of Consumption History, Critical High or Low Level Alerts and Signal Strength, all of which are available through the Sentinel Cloud based Website. The perfect solution for bulk chemical companies and large tank farms to save money on their logistics costs.

Sentinel 247™ Cloud Monitoring
