

# WXDP 120

Product no.: T0051320199N

## Benefits

- › Rework conductive irons WXDP
- › Ideal for professional rework applications of the latest electronic components
- › Soldering and desoldering parameters can be saved easily on the iron
- › Heats up within 35 sec. only with stand-by function

**Technical Data**

|   |                      |
|---|----------------------|
| Active Tip heating element technology     | ---                  |
| Power Response heating element technology | ---                  |
| Silver Line heating element technology    | ---                  |
| Voltage                                   | 24 V                 |
| Power                                     | 120 W                |
| Tip range                                 | XDS, XDSL            |
| Supply unit                               | WXD 2, WXR 3         |
| WX-compatible                             | on                   |
| Temperature range °C                      | 100 - 450            |
| Temperature range °F                      | 200 - 850            |
| Heating time                              | 35                   |
| Safety rest                               | WDH 70 (T0051517299) |
| Safety rest (optional)                    | WDH 70 (T0051517299) |
| Barrel                                    | ---                  |
| Integrated direct extraction              | ---                  |
