TRAMEX REMOTE ENVIRONMENTAL MONITORING SYSTEM

The Tramex Remote Environmental Monitoring System has been designed and developed by Tramex for professionals who depend on the most accurate, reliable, real-time building environment temperature and relative humidity readings using state of the art technology to respond quickly to environmental changes and notify users. The TREMS-10 comprises 10 CS-RHTA Tramex Cloud Sensors and a Tramex Cloud Station router. Multiple Sensors can be used with one Station and additional sensor Accessory Packs are also available. Registration and on-site set-up is simple using a QR code check-in procedure. The on-site Sensors, with battery life of up to 15 years, transmit relative humidity, temperature (°C and °F), dew point and grains per pound / grams per kilo readings wirelessly via the Tramex Cloud Station enabling remote monitoring of up to 200 on-site Sensors on the Tramex Cloud platform.

Tramex Cloud is a secure platform to store and report your moisture, temperature and relative humidity measurements, get notified of adverse conditions and quickly monitor status from any browser. There are no subscription fees and there is free data storage for two years with the Tramex Remote Environmental Monitoring System.

- 1.10 x CS-RHTA Tramex Cloud Sensors
- 2.1 x Tramex Cloud Station
- 3. 1 x Heavy Duty Protective Carry Case
- 4. Tramex Cloud Software Monitoring platform (Tablet not included)
- 5. Antennae for Cloud Station
