

Digi-Sense® Benchtop Twin-Temperature Controllers

Get two controllers in one

- Easy programming with interface key
- Get better temperature control of two separate processes
- Don't overshoot process temperature with auto-tune feature

Controller features an audible alarm function, selectable temperature scale, and two panel-mounted receptacles that accept a three-prong plug. Select from models for types J, K, or T thermocouples with miniconnectors, or 100 Ω Pt RTD probes. To save bench space, mount the unit to a support pole or lattice using the included bracket.

What's included: 6-ft (1.8-m) detachable power cord and lattice support bracket.
